NEW PRODUCT Series CS Steam Hose Crimp Couplings

GJF

S101

GFS3

Parker is introducing Series CS crimp couplings to replace IHP Series 73 crimp couplings. Used primarily in steam applications, the CS couplings are available in the popular male pipe rigid and ground joint female end styles, for both 3/4" and 1" Parker steam hose. In addition to the end styles traditionally offered, Parker is now offering the 3/4" GJF coupling with the spud attached: Part Number 7610-12CSGJFS.

The CS Series couplings listed in this advisory will not be shipped until the current inventory of the corresponding IHP Series 73 couplings is depleted.

Please see comparison chart on reverse side.
